

# Still Lovin' it!

## Have you been to the NEW McDonald's

**W**e all know McDonald's as the brand that introduced India to Burgers and Fries. Almost all of us have some nuggets of McDonald's memories – be it the birthday parties or the indulgent treats! Twenty-three years on, McDonald's continues to be everyone's favourite comfort food, but it has evolved to become cooler, stylish while it continues to offer an amazing variety of food along with great coffee!

### A NEW CHIC LOOK

Your good old McDonald's has got a superb makeover. While the brand still brings back that warm fuzzy feeling, it now has a contemporary look and feel, plush interiors, and vibrant colors that make it the perfect hangout for all instagrammers. There are also gaming tablets on the table and air chargers to keep your phones juiced up.

### A MENU THAT WILL SPOIL YOU FOR CHOICE

For years, McAlooTikki has continued to be the house favourite. But now you have a tray full of new delicious products like Grilled Chatpata Aloo Burger, Chatpata Naan, American Cheese Burger and Maharaja Mac. There are also Spicy Rice Bowl and Cheesy

Rice Bowl that will give you your favourite staple in a uniquely McDonald's way.

### THE PERFECT CUPPA

What makes McDonald's even more inviting is McCafé. The in-house coffee chain boasts of one of the best cappuccino 15 exotic hot and cold options, accompanied by hot muffins and sliced cakes. You can also try their fruit splashes, shakes and smoothies.

### GOOD FOOD STORY

For the past few years, McDonald's has been relentlessly working to get you more wholesome and nutritious food. Did you know that

- There are no preservative or artificial flavors in almost all McDonald's patties.
- The patties have been fortified with natural dietary fiber to make them wholesome.

- The Soft Serve is made of 100% milk and is 96% fat free.
- The sodium content in McDonald's sauces and fries has been cut by 20%
- All McDonald's wraps are whole grain.
- The pizza McPuff is now 100% Trans-fat free, with the goodness of five vegetables.
- The oil content in mayonnaise has been reduced by 40%, the first-ever in the Indian Quick Service Restaurant industry

Your favorite McAloo Tikki Burger is now a balanced meal with the right balance of carbs, protein, and fat (as per NIN standards).

So all in all great food, great coffee, great hang-out place. Isn't this a reason for you to love it even more!
